Growing Season

SEEDSMEN SS SELECT SERIES

MARTIN SEED

SS-456-5
VT2P

VT Double PRO® RIB COMPLETE®

RELATIVE MATURITY:
115

EAR TYPE
Semi Flex

KERNEL ROWS
14-16

FLOWERING FOR RM
Medium

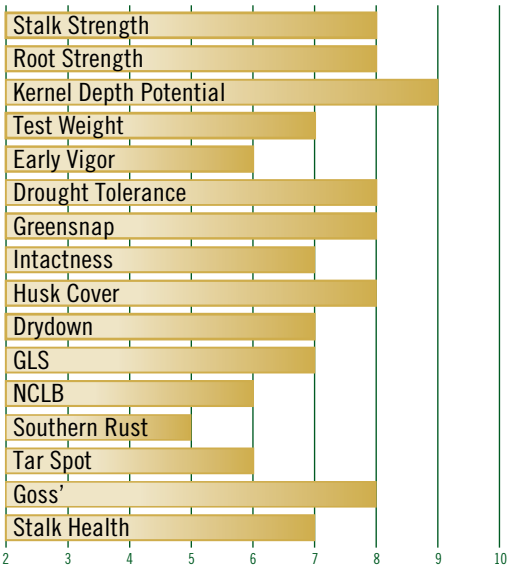

RM ZONE FIT
In Zone, South or Zone, North of Zone

POPULATION RANGE
Medium to Medium High

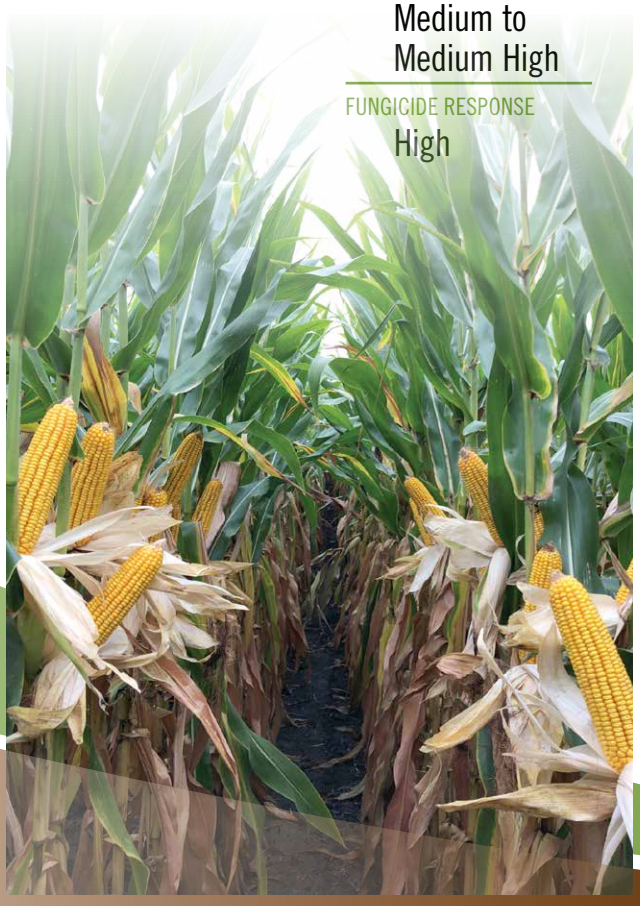

FUNGICIDE RESPONSE
High

FEATURES AND BENEFITS:

The full season home run hitter – we are so excited about SS-456-5 we can't stop talking about it. The new yield maximizer for the region takes advantage of the entire season to deliver big chunky ears on a more compact medium-statured plant. Very solid and stable agronomics – it stands great, and it yields. Think short corn, and not at "short corn" price.

1=Poor, 9=Excellent

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all applicable regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

B.t. products may not yet be registered in all states. Check with your seed brand representative for the registration status in your state.

IMPORTANT IRM INFORMATION: Certain products are sold as RIB Complete® corn blend products, and do not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. Products sold without refuge in the bag (non-RIB Complete) require the planting of a structured refuge. **See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.**

Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. Plants that are not tolerant to glyphosate may be damaged or killed if exposed to those herbicides. RIB Complete®, Roundup Ready 2 Technology and Design®, Roundup Ready® and VT Double PRO® are registered trademarks of Bayer Group. Respect the Refuge and Corn Design® is a registered trademark of National Corn Growers Association.

Roundup Ready 2 TECHNOLOGY

RESPECT THE REFUGE

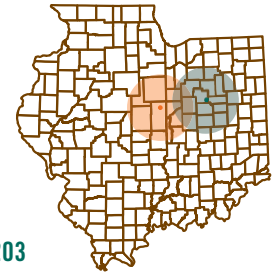

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, **including applicable refuge requirements for insect resistance management,** for the biotechnology traits expressed in the seed as set forth in the Technology/Stewardship Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation and agreement to comply with the most recent stewardship requirements.
